Chlorine Test Kit High/Low Product Code: 11385

Information

The Lovibond® Comparator 2000+ System is an extremely versatile modular system for testing water. It is simple to use yet is uncompromising in terms of precision and reproducibility of results. Unlike other comparators, the 2000+ uses a prism enabling colour matching in the same field of view. The Comparator itself is robust compact and portable allowing for ease of use in any environment. Longer path length cells can be used for lower concentration analysis. A diffuser plate is also used to allow the measurement of turbid samples.

Fade free glass colour standards are used in the comparator discs to ensure long term stability and accurate colour matching.

Full disc readings for each Chlorine disc can be found in the table below:

Test	Disc code	Disc Readings
Chlorine	3/40A	0.1, 0.2, 0.3, 0.4, 0.5, 0.6, 0.7, 0.8, 1 mg/l
Chlorine High	3/2ARP	5, 10, 15, 20, 25, 30, 35, 40, 50 mg/l total Cl ₂

Kit Content

- Carry case with inlay
- Comparator 2000 + unit
- High Range Chlorine disc
- Low Range Chlorine disc
