Specialist Suppliers to the Utilities

Double Outlet Hydrant Standpipe Product Code: 11705

Information

Used to obtain water from a pressurised mains supply via underground hydrants. The standard outlet for underground valve hydrants according to BS750 is 2 1/2" BSRT (LRT) male, although hydrants are still in use with other non-standard outlet connections. Vernon Morris are able to supply hydrant standpipes with a range of non-standard base connections in all combinations, whether it be single or double outlet or whether you require 2" or 2 1/2" DCV.
