Fuji LDR-20 Water Leak Detector Product Code: 11823F

Information

Description

This FUJI LDR-20 Water Leak Detector is a high performance acoustic leak detector; building on the solid reputation of its predecessor, the FUJI HG-10A11.

The LDR-20 leak detector is more sensitive and therefore easier to hear the sound of a leak than the previous model. It is compact and lightweight and has various filter settings to reduce background noise when locating leaks. The unit display can be reversed on the screen to enable the user to strap the unit in various ways.
