Vernon Morris Utility Solutions Ltd

Specialist Suppliers to the Utilities

Male Inst x 2" Female BSP Product Code: 11648

Information

Aluminium Alloy Instantaneous fittings can be supplied in both male and female connections. The female type connector has a spring loaded catch which when released will allow it to be disconnected from its male counterpart. The Instantaneous type fitting is commonly used by British fire-fighting services as well as within the Water industry for connections to drinking water supply, wash-downs etc. All British Instantaneous fire fittings are manufactured to BS336. Lightweight Aluminium Alloy fittings can be supplied in a variety of connections that range from male or female BSP connection, Instantaneous to Instantaneous connection (both male x male or female x female) as well as blanking caps/plugs.
