PRO Chrome Vanadium Steel Masonry Chisel 26.0mm Blade Width Product Code: VM0660

Information

Chip through hard materials with precision thanks to this 26 mm masonry chisel from RS PRO. You can use this trusty component in both home and business applications, so you'll find it used by both DIY enthusiasts and professional builders and carpenters.

The masonry chisel comes with an octagonal grip shank, designed for easy handling. It's made from hard-wearing black plastic, so it will withstand the strain of frequent hammering. This tough component also has a multi-coated impact head to rule out annoying chipping and swelling, so you can create a neat, professional-looking finish.

This reliable chisel is manufactured from chrome-vanadium (CrV) air-hardened steel, which means it's exceptionally durable. For longer-lasting use, the gold dip-coated surface resists rust and tarnishing, even in damp and warm conditions. It's well-suited to breaking through concrete, stone and tiles.
