Ring 12V Rapid Digital Tyre Inflator Product Code: ZZ904

Information

Ring 12V Rapid Digital Tyre Inflator fitted with fused 12V power plug and 3.5m cable that stretches the full length of a standard car, allowing back tyres to be easily reached and checked. Inflates a tyre to 35PSI in just 2 minutes saving you time. The digital display gauge shows pressure in PSI, BAR or kPa for reliable and accurate performance. Also comes complete with a handy storage case.

Vernon Morris Utility Solutions Ltd

Specialist Suppliers to the Utilities

Supplied with three adaptors and features a built-in LED light.

Easy to use where you need it, as it is powered directly from your in-car 12V socket. Clearly see readings on the large backlit digital screen.

Auto stop ensures accurate inflation. It's simple to set: just turn the dial to the pressure you require, click to set; then press start. The inflator will automatically stop once the correct pressure has been reached.

3.5m long cable allows you to reach tyres all around the vehicle. Simply wind up to store tidily in the back on the tyre inflator. The 70cm air hose can be stored in the inflator.

The inflator is easy to use, thanks to the flat design, large on/off button and valve cap storage. The deflation valve allows you to make small reductions in pressure.

- Digital tyre inflator ideal for cars, vans, motorcycles and more
- Inflates a tyre in 2 minutes
- Quick setting digital gauge
- Automatically stops at the set pressure and remembers it for future use
- Measures in PSI, BAR and kPa
- Easy to read W76 x H48mm digital screen with status bar helping you to keep track in any condition
- Extra long 70cm air hose with easy access storage compartment specifically designed to reduce kinks
- Premium brass screw stem valve connector helps reach awkwardly placed tyre valves
- Tyre deflation valve quickly releases unwanted pressure
- Fitted with extra-long 3.5m power cable and fused 12V DC power plug to help you reach all around the vehicle
- Wind up power cable gets you back on the road faster
- Valve cap storage compartment for safe keeping when inflating
- Flat design gives you maximum stability during use
- Directional white LED light gives maximum illumination where you need it
- Large on/off button for easy use with dirty/greasy hands or in poor lighting conditions
- Complete with 3 piece adaptor kit for bicycle tyres, balls and other inflatables
- Also includes: 1x spare fuse, 4x spare valve caps and 1 x pair of gloves
- Comes with handy storage case
