Safety Lifter (Pair) T Handle 24" overall length 5/8" Dia. Product Code: 10191

Information

The Safety Lifter is specifically designed with safety in mind to meet the needs of today's water industry.

Manufactured from mild steel, the range comprises of two standard handle designs, Full handle or T handle. Both handle designs are available in either 12", 18" or 24" lengths. (other lengths are available upon request).

The unique locking mechanism is designed to reduce the risk of the key slipping out of the cover plate during operation. This is achieved by simply inserting the prongs of the sliding collar into the slots of the cover plate and then twisting the key through 90° locking the key into the lifting slot of the cover plate.

Availability: In Stock
