Tsurumi Submersible Pump - Manual 230v with 3" Outlet

Product Code: TS23080PUMP

Information

The HS series, manufactured by Tsurumi are our premium range of 3 inch submersible pumps engineered for the toughest applications including construction & civils, hire fleets, utilities, dewatering and water features.

The HS3.75S offers increased pressure and flow rates over the HS2 version and has a solid cast aluminium body, cast iron pump casing and an impact resistant PVC strainer base for durability during robust handling. The urethane vortex impeller offers excellent wear

resistance in site applications where the water contains sand and silt in suspension, thus maintaining performance and reliability in the long term.

This reliable pump features an oil lifter to maintain seal lubrication during operation in any position. All Tsurumi HS models include a 403 stainless steel shaft, that is fitted with an ultra hard-wearing, twin mechanical seal (inboard: silicon carbide-silicon carbide) which runs in an oil chamber - and have a stirring/agitator device built-in in order to reduce blockages.

Used predominantly as contractor pumps on-site drainage duties, they can also be used in other industrial applications.

Supplied with 10 metres of heavy duty, rubber power cable and hose clip.

Model	HS3 – 75S
Voltage	230V
Outlet	3"
KW	0.75
Flow	310 LPM
Head	18 metres
Free Passage	7mm
Width	185mm
Length	290mm
Height	385mm
Dry Weight	16.9Kg
