Unique Quadoptix Technology

The Turbimeter Plus uses two independent sources and two independent detectors to provide four autonomous measurement systems, allowing multiple validation of results for greater accuracy.

Data management with USB connectivity

The Turbimeter Plus includes storage for 1000 results which can be transferred to a PC via USB.

Rapid results in less than 10 seconds

Get turbidity results in less than 10 seconds using normal mode. For further analysis switch to average or continuous capture modes.

Ideal for field use

With initial battery power for approximately 10,000 tests, the Turbimeter Plus is designed for field use, coming in a portable case for easy transit. Charge your instrument via the USB.

IP67 certified waterproof

The Turbimeter Plus is fully waterproof, inclusive of the USB socket.
