Unvented System Test Kit Product Code: TK503

Information

A must for the professional installer, this kit enables flow and pressure of pressurised heating systems to be taken and hence, protect the appliance from high/low pressure damage.

A range of plastic tap adaptors enables the flow monitor to be fitted to most internal taps.

Each Kit Includes:

- Carry case with inlay
- 5-60 lpm flow monitor fitted with a 90° ball valve
