## Valve Key Double Hole (D/H) (32mm dia. shaft) Product Code: 11744

### Information

The DH Range feature a double hole to enable the safe practice of using two bars to operate stubborn valves that require a greater force than can be effectively achieved by one person. When used with the VM bar which incorporates a safety stop to prevent the bar slipping out of the hole, the risk of injury to the operator is significantly reduced. Valve keys can be supplied in either standard length 1m or 1.5m.

DH Valve keys can be supplied to suit the following valves:
