## VM 700/1048 Mains Pressure Test Pump

Product Code: MAINSPRESSURE700/1048

### Information

The Vernon Morris piston type mains pressure test pump (VM 700/1048) is able to inject at a rate of 12 lpm to a maximum of 150 bar, which enables larger mains to be tested within an optimum timescale. This tough compact unit can easily be transported in a small van.

The VM 700/1048 can be supplied with pressure and flow data capture equipment, enabling the facility of being able to produce a graph in Microsoft Excel to identify pipeline performance.

The VM 700/1048 Mains pressure test pump is supplied with a 3 metre high-pressure hydraulic delivery hose rated at 150 bar.

The same pump can be supplied without Standpipes (Part No. Z9089)
