Whale Submersible Pump

Information

The Whale Orca electric pump is a compact, powerful, high performance bilge pump, suitable for flooded meter chambers and pits. The housing is manufactured of robust fuel-resistant ABS plastic that is easily removed from the large filter base for easy cleaning and maintenance. The large filter base provides maximum exposure of the bilge for good suction capability. The low current consumption of the efficient electric motor aids in extending battery life. Meets ISO 8849 marine standards.
